

## **US-DC-Washington/Metro-Project Lead/Senior Engineer**

### **Who we are**

InfoStructures, Inc. is a network consulting firm located in Rockville, MD. Since 1988 we have been employing leading-edge technologies and techniques to improve the working lives of others. We are seeking energetic, highly-motivated, qualified network engineers with the right attitude toward customer service. We place great value in the work our engineers do and in the difference their efforts make in people's lives.

What makes us different than other networking companies? It's simple: the quality of our services and our attention to detail.

### **What experience you need:**

**Six years plus** (6+) of hands-on Project Lead and Senior-Level Engineer experience, preferably providing multi-platform networked systems support in an enterprise environment. You should have:

- ❑ Solid track record of project lead, planning, delivery, tracking, leadership, mentoring and documentation
- ❑ Ability to analyze and document complex configurations and business work flow
- ❑ Superior problem-resolution skills
- ❑ Ability to weigh options and provide the most efficient and cost-effective solution from a number of options.
- ❑ Excellent oral and written communication skills, including an ability to deal with people at various levels, from technician to executive
- ❑ Strong track record in leading a technical team and in building client relationships.

In-depth abilities in any of the following: system and requirements analysis; technical architecture and design; networking telecommunications; computer security

Strong working knowledge of installing, configuring, and troubleshooting products in as many of the following areas as possible:

- ❑ Microsoft Windows 2000/2003 Server with a high-level understanding of Active Directory design, implementation and troubleshooting
- ❑ Microsoft Windows 2000/2003 Terminal Server

- ❑ Microsoft Exchange Server 2000, 2003 including OWA implementations
- ❑ Citrix Presentation Server v3.x and v4.x
- ❑ Citrix Metaframe Secure Gateway Manager v2.x
- ❑ Symantec BackupExec for NetWare, Windows 2000 and 2003 Server
- ❑ HP/Compaq and Dell servers
- ❑ PC configuration distribution tools (e.g., Ghost, ServerMagic, ZENWorks)
- ❑ Strong connectivity background (TCP/IP and IPX protocols, knowledge of Cisco, Watchguard networking equipment)

**What education/training/certification you need**

MCSE (Windows 2000 / 2003) REQUIRED!

Bachelors degree in a technical discipline desired

Other project management credentials desired

**What you will do**

Your duties will include the following:

- ❑ Plan, implement and provide advice on server and network (LAN/WAN) configurations and migrations
- ❑ Evaluate complex network requirements and resolve LAN- and WAN- and Internet-related connectivity issues; suggest improvements to client network infrastructures
- ❑ Design and configure network backup systems
- ❑ Plan and configure security models for network access to servers and other network resources
- ❑ Provide team leadership on technical projects and technical guidance to other engineers
- ❑ Integrate different software and/or operating-system platforms; evaluate COTS and develop prototype configurations for large-scale rollouts
- ❑ Identify, develop and improve techniques for centrally managing servers and clients
- ❑ Develop technical reports and documentation
- ❑ Complete other duties as assigned

**Where you will do it and for whom you will do it**

You will be based out of InfoStructures' headquarters in Rockville, Maryland and travel to client sites in and around the Washington, DC area. You will support government and commercial clients.

**Benefits**

InfoStructures provides a comprehensive benefits package that includes paid vacation, personal/sick days, employee health insurance coverage, and a 401(k)/profit sharing plan.

Please forward cover letter, resume and salary history/requirements to [personnel@infostructures.com](mailto:personnel@infostructures.com) or fax to Personnel at (301) 417-7177. Equal Opportunity Employer.
