

## **Junior Level Network Engineer**

### **Who we are**

InfoStructures, Inc. is a network consulting firm located in Rockville, MD. Since 1988 we have been employing leading-edge technologies and techniques to improve the working lives of others. We are seeking energetic, highly-motivated, qualified network engineers with the right attitude toward customer service. We place great value in the work our engineers do and in the difference their efforts make in people's lives.

What makes us different from other networking companies? It's simple: the quality of our services and our attention to detail.

### **What experience you need:**

Two years plus (2+) providing multi-platform networked systems support, preferably in a consulting environment. You should have:

- Problem-resolution skills
- Ability to weigh options and provide the most efficient and cost-effective solution from a number of options.
- Excellent oral and written communication skills, including an ability to deal with people at various levels, from technician to executive
- Strong ability to build client relationships.

Strong abilities in any of the following: system and requirements analysis; technical architecture; networking telecommunications; computer security

Working knowledge of installing, configuring, and troubleshooting products in as many of the following areas as possible:

- Microsoft Windows 2000/2003 Server with a solid understanding of Active Directory administration and troubleshooting
- Microsoft Exchange Server 200x
- Veritas BackupExec
- Windows 2000, 2003 including Terminal Services
- Citrix MetaFrame
- Cisco and other brands of routers and switches
- HP/Compaq and Dell servers

- ❑ PC configuration distribution tools (e.g., Ghost, ZENWorks)
- ❑ TCP/IP protocols
- ❑ MS Office Suite

**What education/training/certification you need**

MCSE *required*

Bachelor's degree in a technical discipline desired

**What you will do**

You will provide on-site and remote network integration and support services to our government and commercial clients. This position exposes you to different clients and environments on a regular basis.

You will also:

- ❑ Provide advice on server and network (LAN/WAN) configurations
- ❑ Configure network backup systems
- ❑ Create technical reports and documentation
- ❑ Complete other duties as assigned

**Where you will do it**

You will work primarily at client sites in and around the Washington, DC area, with some work at InfoStructures' headquarters in Rockville, Maryland.

**Benefits**

InfoStructures provides a comprehensive benefits package that includes paid vacation, personal/sick days, employee health insurance coverage, and a 401(k)/profit sharing plan.

Please forward cover letter, resume and salary history/requirements to [personnel@infostructures.com](mailto:personnel@infostructures.com) or fax to Personnel at (301) 417-7177. Equal Opportunity Employer.
